

Let's talk about...

Story CHAMPS

Story Champs is a multi-tiered curriculum for promoting academic language for ALL students. Tier 1, Tier 2, Tier 3!!! Aligned across tiers.

With Story Champs, children can work on reading comprehension without print.

All students need intensive academic language promotion.

Storytelling is fun!

With Story Champs, children learn metalinguistic skills that benefit all academic domains.

A story is a sense-making device and life is a story.

Storytelling capitalizes on children's natural motivation to talk and to have someone listen to them.

Story Champs is a **READING** intervention!

Story Champs can be delivered by anyone. It's that easy.

Listening and speaking are the foundation of reading and writing, yet schools do not routinely assess children's listening and speaking skills.

The CUBED assessment is free and ready!!! It takes 2 minutes.

Academic skills such as reading and writing are language skills!!!

Learning to tell personal stories protects children against bullies and gives children a way to tell parents about their day.

In addition to narrative retelling, Story Champs intervention improves informational discourse, vocabulary, writing, and personal stories.

It's affordable.

It is hard to do Story Champs poorly.

Stories are pervasive, culturally relevant, and personally relevant.

Children ask to play Story Champs.

Story Champs is easy to use and it works!
